2010-11 BUDGET

The City of Fillmore prides itself on its charming “Anytown, U.S.A” ambiance. Fillmore is often the filming location for television, movie, and advertising productions. Through the Fillmore Film Commission, filming is welcomed and encouraged within the City. City Hall, which was built after the Northridge earthquake, displays the words, “City Hall” on its front façade without the City’s name. This was done purposefully to promote filming in the charming Center City Park in front of the City Hall building.

Special thanks to Patrick Maynard, a City of Fillmore employee who designed the cover of this year’s budget, with its view down Fillmore’s attractive Central Avenue starting at the Central Avenue clock.
