County of Ventura's Santa Paula COVID-19 Testing Location to Move

Ventura, CA – The County of Ventura's drive through testing site in Santa Paula, located at 128 S. Hallock Drive, will be closed on Friday, October 9, 2020. The site will be relocated to the Santa Paula Oil Museum located at 1001 E. Main Street in Santa Paula beginning October 16, 2020. The operating hours will be Friday through Tuesday from 10 am to 7 pm. The change of location and hours will allow easy access to testing for residents.

Testing is an important component of slowing the spread of COVID-19. Testing and contact tracing help to contain disease. The County of Ventura offers free COVID-19 testing at multiple sites for County residents who have the slightest suspicion of having COVID-19 or have had close contact with a person who has tested positive. Testing is also for any resident who has been in a crowded space or for those who serve the public in the course of their work. A resident does not need to have health insurance to get tested. No appointment is necessary.

Symptoms of COVID-19 can include: cough or shortness of breath, fever greater than 100.4 F, chills, muscle pain, headache, sore throat, new loss of taste or smell.

Close contact means: sharing a home, being closer than 6 feet for more than 10 minutes without wearing a mask, having contact with bodily fluids (spit, blood) of the sick person through coughing, sneezing or sharing utensils.
